Heavy R&D investments

To ensure that you are on top of industry trends, we – Qihan Technology – reinvest 10 percent of our profits in our Shenzhen R&D center. In this facility, we employ 64 engineers who have honed their skills by working for seven years in South Korea's security industry. With this financial backing and expertise in PCB design, cameras, DVRs, circuitry and troubleshooting, they're able to develop two new models monthly.

Providing quality products since 2002

We are driven by our clients' demands, and they demand quality. Since 2002, we've been devoted to providing

products that meet the quality requirements of buyers worldwide. Every item we release from our factory is manufactured according to ISO 9001:2000-certified management guidelines.

A wide selection with 2-year warranties

Choose from more than 500 products, each with a two-year warranty. And we have returned material authorization procedures in place for added sourcing convenience. To benefit from our advantages, contact us today.
